Standard Box front-mounted roller shutters

The Standard Box front-mounted roller shutter is the perfect combination of efficiency and safety. Designed with a box pitched at 45 degrees, it guarantees a perfect fit to existing windows and façades.

Assembly is extremely simple, and its advantages are impressive.

- Energy savings: polyurethane foam and an air layer minimize heat loss in the winter and overheating in the summer.
- Enhanced safety: The roller shutter creates an additional layer of protection for your interiors.
- Elegant design: The roller shutters blends harmoniously with the façade of the building.

In Box flush-mounted roller shutters

The In Box flush-mounted roller shutter combines the best features of external and overhead shutters. Its box is concealed, and an inspection flap on the outside of the building enables easy service access.

We offered a variety of options, with or without a mosquito net.

- Energy savings: Rigid polyurethane foam and an air layer minimizes heat loss in winter and overheating in the summer.
- Enhanced safety: The roller shutter protects your privacy, giving you a sense of peace and security.
- Invisible Box: The shutter box remains completely invisible, blending harmoniously into the into the façade of the building.
